

ViewPoint Software is as effective as it is easy to use. The interface allow you to view all of your assets on one or several floor plans with visual representation of your assets as well as the ability to view your inputs in our updated tile or list views.

The Easy to use Navigation Bar makes exploring the software easier than ever.

Home - Will bring you back to the Home screen from anywhere in the software with one easy click.

Reports - Corrective Action History, Reading History, Current Readings, Summary Report, Audit Log, System configuration, Calibrations.

Configuration - Programming Assets, Adding or Removing Users, Assets, Notification Lists, Schedules, Maps, System, Measurement Types, Alarm Lamps, Holidays, Calibrations and Access Points.

Help - System information and help features.
