

ViewPoint® V1.3.0  
Build 20190607  
Compliance Certification

ViewPoint V1.3.0 Build 20190607 software was evaluated for conformance to function and performance specifications during the period of March 11, 2019 through June 12, 2019. The testing performed during the software evaluation was executed against the Validation and Compliance Plan for ViewPoint V1.3. The Compliance Plan was developed in accordance with GAMP5 and USFDA 21CFR Part 11 guidelines

The results of this testing demonstrate that the software conformed to applicable performance and functional specifications. ViewPoint V1.3 possesses all the features and functionalities required for compliance with and USFDA 21CFR Part 11. Test results are documented within the applicable sections of the validation package.
